

Remarks:

The specification has been amended by adding paragraph [0004.1] and replacing paragraph [0005] to correspond to the amendments to the claims.

Claims 4-20 remain in this application. Claims 1-3 have been canceled and claims 16-20 have been added. Claim 16 is a new claim drawn to the adjustability of the surgical navigation array. Claim 16 finds support in the specification at paragraph [0020] second and third sentences, paragraph [0022] next to the last sentence, and in original claim 1. Claims 17-20 derive from original claims 1-3 and therefore find support in original claims 1-3.

The number of claims does not exceed the number previously paid for and thus no additional fee is due.

Respectfully submitted,
